[Despatch Abstract.]

Elections - Mangalore Municipality - Revised scheme of election - Orders passed.

EXTRACT HEALTH DEPARTMENT.

MEMORANDUM SUBMITTED TO THE HON'BLE
SRI A.B. SHETTY, MINISTER FOR HEALTH, GOVERNMENT OF MADRAS.

Minutes of the Minister for Health.

Secretary - Health.

Presented to me at the Municipal Office, Mangalore, where a reception was given to me on 1.7.53. Matters relating to the Health Department may be examined and put up early. Other matters may be remitted to the concerned Departments for necessary action and circulation to me before passing final orders.

A.B. Shetty,
3.7.53.

Extracts of Para 4 and 6:

4. We have been spending about Rs. 40,000/- per year on anti-mosquito measures and though we have not been able to bring down ~~mosquito measures~~ the incidence of filarial infection very much, we can at least say that we have been able to prevent a rise in the incidence of infection. We feel that if some intensive anti-mosquito work on scientific lines combined with some research work is carried on in this city under the aegis of government, the menace could be effectively checked and in course of time completely eradicated. We therefore request you to start an investigation centre in this city to tackle filarial infection and we assure you that we would wholeheartedly work out the scheme, under government direction. We may here point out that recently we have sanctioned an expenditure of Rs. 2,500/- for meeting the allowances for three months, of one Officer with small staff to formulate scheme and demonstrate the technique of control of filaria, to be sent over to this city by the Malarial Institute of India. We request the government to move the Malarial Institute of India, in the matter on our behalf.

6. As per instructions of the government, the Municipality has been manufacturing compost and has been sustaining loss from year to year. On an average the municipality produces about 2,000 tons of compost of which not even a fifth is sold even though we are selling the same at Rs. 1.8.0 per ton as against the manufacturing cost of Rs. 6.14.0 per ton. Even though we have been providing transport facilities in municipal lorries at cheap rates and have been doing propaganda to popularise compost, the cultivators are still averse to use compost manure. And now we are losing over Rs. 8,000/- per year, by manufacture of compost. So we request you to exempt this municipality from manufacturing compost compulsorily on a large scale. We assure you that we would voluntarily manufacture compost to the extent there is local demand for it.

Sir

Sub: FILARIASIS-Mangalore Municipality-comprehensive scheme of control-deputation of staff- Rs 2500/- sanctioning-copy of the Council Resolution-communicated.

In G.O.Ms.No. 1748 H dated 8-5-'53 Government have sanctioned continuance of the anti-filaria scheme at a cost of Rs 40,200/- for a further period of one year from 1-4-'53 in this municipality. Only anti-larval measures are undertaken at present. Director of Public Health has informed in his letter No. 19901-Mal(5)/53 d/ 20-5-'53 addressed to the Honorary Secretary , The South Kanara Branch of the Indian Medical Association, Mangalore, that these measures have yielded satisfactory results and that the same will be continued until the comprehensive scheme of antilarval measures supplemented by anti-adult measures to deal with the adult mosquitoes and the parasitic factor in the human host, which are under consideration of Government is completed.

The Director-General of Health services in his communication in D.G.H.S.U.O.No. 49-3/53 PH I dated 16-5-'53(Ministry of Health) has suggested that if the Mangalore Municipality and the Government of Madras so desire the malarial Institute of India can depute an officer with a small staff to formulate schemes and demonstrate the technique of control of filaria for 3 months and that the expenditure of Rs 2500/- on account of T.A and D.A of the Institute staff should be met by the Mangalore Municipality.

The Council is agreeable to the above proposal and it has sanctioned the amount to meet the necessary expenditure mentioned above. A copy of its resolution No. 918 dated 15-6-53 is enclosed. The staff may kindly be deputed to take up the work conveniently after the monsoon is over i.e from 1-10-1953.

9 - SEP 1953
HEALTH DEPARTMENT

G1/10617/53. Copy of the Council Resolution No. 918 d/ 15-6-53.

Read: 1. Letter from the Director of Public Health in Ref.No. 19901-Mal(5) dated 20-5-53 informing about the comprehensive scheme of antilarval measures supplemented by anti-adult measures proposed to be carried out for filariasis control in Mangalore Municipality which is under consideration of the Government.

2. Letter d/ 16-5-53 from Director General of Health Services suggesting an approximate expenditure of Rs 2500/- for the deputation of staff for 3 months towards T.A & D.A by Malarial Institute of India to formulate schemes etc.

3. Commissioner's note requesting the council to consider these proposals and informing that the expenditure can be met by the council.

COUNCIL RESOLUTION NO. 918 d/ 15-6-53.

The Malarial Institute of India may be addressed through the Madras Government to depute an officer with a staff to formulate schemes and demonstrate the technique of control of filariasis for three months. ~~The expenditure of Rs 2500/-~~ The approximate expenditure of Rs 2500/- on account of T.A & D.A of the staff is sanctioned.

COMMISSIONER

Copy of letter No. R.No. 54737-Mal.5/53-1 dated 8th July 1953. from the Director of Public Health, Madras.

---

Public Health Department.

From

Dr. K.S.Vishwanathan, B.A., M.B.B.S., B.S.Sc. , M.P.H(Harvard)
Director of Public Health, Kilpauk, Madras-10.

To

The Commissioner, Mangalore Municipality.

R.No.54737-Mal.5/53-1: Dated 8th July 1953.

Sir

Sub: Anti-filariasis scheme-Mangalore Municipality-proposals re-organisation-appointment of Entomological Assistant-recommended.

It is advisable and necessary that the present anti-filariasis scheme inMangalore Municipality , confined to anti-larval work only, is supplemented by anti-adult measures in selected localities and at a later stage with anti-parasitic treatment of heavily-infected persons. To secure these desiderata, it is suggested that the scheme be placed under the immediate charge of an Entomoligical Assistant to be appointed who will however work under the control of the Municipal Health officer. To start with, the Entomological Assistant will make special surveys in heavily-infected areas including mosquito and blood surveys. He will exercise efficient control over the present anti-larval work and this will afford help and some relief to the Municipal Health officer. will arrange for anti-adult sprayings of houses found to harbour infected mosquitos and selected filarious cases.

2. An Entomological Assistant and a peon have to be appointed. He should be provided with a well-lighted laboratory. As the Municipal Health officer has already got a microscope, the extra equipment necessary for the laboratory will consist only of a dissection microscope. Collection, equipment and other minor items and furniture.

3. The Entomological Assistant's post will be regarded as a temporary addition to the cadre of Entomological Assistants, and the expenditure on account of his pay and allowances will be met from the State funds and the gross sanctioned cost including leave and pensionary contribution are recovered subsequently from the municipality.

The extra expenditure is estimate to be:---

| | | |
|---|---|---|
| Entomological Assistant(Rs 100-10-180) plus Dearness allowance. | | 12 x ( 100 plus 24) = Rs 1528. |
| The Entomological Assistant will get a cycle allowance of Rs 4/- per mensem or a motor cycle allowance of Rs 25/- per month. | | Rs 48/- or Rs 300. |
| One peon on Rs 18/- plus Rs. 18/- Deanness allowance. | | Rs 432/- |
| Laboratory Equipment and furniture-Rs 1000/- | | |
| Adult spraying equipment: One power sprayer and two stirrup-pumps. | Rs 1250/- | Rs 2250/- |
| Adulticides= Lump sum provision(liable to revision in the coming years : | Rs 1000/- | Rs 1000/- |
| Rents and other contingencies: | Rs 750/- | Rs 750/- |

Recurring-Total: Rs 3,750 to 4,000.
Non-recurring : Rs 2,250/-

The bulk of the expenditure will be made up by savings in the Budget for anti-larval measures in view of the change-over from D.D.T - based larvicides to Gammexane P-520.

The Commissioner is requested to move the Council to sanction the above proposals and apply for Government sanction.

Yours faithfully

Sd.....
for Director of Public Health, Madras.

R.No.54737-Mal-53(5). Office of the Director of Public Health,
Madras, dated 3-9-1953.

Forwarded.

The Municipal Council, Mangalore has accepted the proposal of the Director of Public Health to reorganise the anti-filariasis scheme of the town without increasing the cost of the scheme as already sanctioned. The reorganised scheme may be approved.

49402 The Council has also resolved to invite a unit from the Malaria Institute of India to advise them with regard to formulation of an anti-filariasis scheme. Though I consider that such a unit will not be able to suggest a scheme ~~which~~ which would not require considerable outside assistance as from the W.H.O or UNICEF, yet as the council is evincing keen interest in implementing a successful anti-filarias scheme, the proposal of the council to spend a sum not exceeding R.?,500/- for a Central ~~limit~~ unit to work for 3 months may be sanctioned.

Sir

Sub: ANTI-FILARIASIS SCHEME-Mangalore Municipality-proposals-re-organisation-appointment of Entomological Assistant etc. - sanction requested.

Ref: Letter In R.No. 54737/Mal/5/53/1 dated 8-7-53 from the Director of Public Health, Madras.

In G.O.Ms.No.1748 Health dated 8-5-53, Government have sanctioned the continuance of the anti-filarial scheme at a cost of Rs 40,200/- for a further period of one year from 1-4-1953 in this municipality. Only antilarval measures are undertaken at present. In this office letter in G1/10617/53 dated 24-6-53 the Director General of Health Services, Malarial Institute of India, Delhi, was addressed as per resolution of the council in Council resolution No. 918 dated 15-6-53 (copy enclosed) for the deputation of an officer with a small staff to formulate schemes and demonstrate the technique of control of filaria for 3 months as suggested by him in his communication d/ 16-5-53 (copy enclosed) to take up the work after the monsoon is over i.e from 1-10-1953.

The Director of Public Health, in his letter R.No.54737-Mal-5-53-1 dated 8-7-53 ( copy enclosed) suggests further proposals regarding appointment of an Entomological Assistant and a peon to implement the scheme to supplement the antilarval work by anti-adult measures and at a later stage with anti-parasitic treatment of heavily infected persons. It is stated that the expenditure on account of the pay & allowances of the Entomoligical Assistant will be met from the State Funds and the gross sanctioned cost including leave and pensionary contribution will be recovered subsequently from the municipality. It is also suggested that the bulk of the expenditure will be made up by savings in the Budget for anti-larval measures in view of the change-over from D D T-based larvicides to gammexane P 520. The approximate savings in the budget in view of the above charge in larvicide will be Rs 6000/-.

The Municipal Council in its resolution No. 1115 dated 8-8-53 (copy enclosed) has accepted the above proposals of Director of Public Health and also sanctioned the necessary expenditure. Government may be pleased to accord early sanction.

Routine HFLA(III)Jc

At p) cf. there is reference to the appt. of an Entomological Asst. for the Hangal Scheme. The P.H. Regulations do not provide for the appt. of E. A's via the exit of local bodies. But in the case of the Gunture anti-malarial scheme a similar difficulty in regard to the appt. of a III class H.U. was got over by appointing the H.O. as a Govt. servant and then receiving a contribution from the DHSd. The Govt. (orgl) has been transferred to Bombay but a spare copy of the Govt. is kept up in a file Cov. 241 41 HFW(3) relating to the anti-filarial Scheme of the Kozhikode Municipality. For the present work of this issue branch it is almost impossible to trace any papers there. This may be seen over 1CU 18-11-53 when the spare copy of Govt. Govt. may be available

ASSISTANT SECRETARY TO GOVT.
19 JAN 1954
HEALTH, EDN. & LOCAL ADMN. DEPT.

Delhi, dated the 18th January, 1954

Subject:- Filariasis in Mangalore - Eradication of

Sir,

5539

With reference to your letter No. 37837 HIV/53-3 dated the 21st December, 1953 addressed to the Director General of Health Services on the above subject, I have the honour to state that the unit from this Institute for carrying out a filaria survey and demonstration of control measures in the Mangalore Municipality will be able to reach Mangalore by the first week of February, 1954. The team will consist of one officer and four assistants. I trust that suitable office, laboratory facilities and residential accommodation will be made available. A transport will also be essential as quite a lot of the survey work will be carried out during nights also.

I am to further request you that arrangements for the number of local staff to be trained for work with the unit may also be made beforehand.

As it is desired to complete the work before the onset of the monsoon i.e. end of May, this office shall be grateful to learn that all arrangements have been made before the unit leaves Delhi for Mangalore.

Yours faithfully,

Jaswant Singh

(Jaswant Singh)
Lieut-Colonel
Director

New Delhi-2, the 17 June, 1954.

From

Shri Babu Ram,
Under Secretary to the Govt. of India.

To

The Director General of Health Services,
New Delhi.

Subject:- Filariasis in Mangalore - Eradication of.

---

Sir,

With reference to your Memorandum No.49-3/53-PHI, dated the 19th May, 1954, I am directed to convey the sanction of the Government of India to the exemption from the operation of S.R. 73 of the following staff of the Malaria Institute of India, Delhi, in respect of their halt at Mangalore for the period shown against each:-

| | |
|---|---|
| (1) Dr. A.K. Krishnaswamy, Assistant Director (Filaria) | from 24th February to 23rd May, 1954. |
| (2) Shri Ram Asra, Laboratory Assistant, | from 24th February to 23rd May, 1954 |
| (3) Shri Mool Chand, Laboratory Assistant. | from 24th February to 23rd May, 1954. |
| (4) Shri V. Balasubramanian, Insect Collector | from 24th February to 22nd May, 1954. |
| (5) Shri A.K. Verghese Insect Collector | from 24th February to 22nd May, 1954 |

Their daily allowance should be regulated as follows:-

Dr. A.K. Krishnaswamy

(a) full rate of the first ten days;
(b) three-fourths of the ordinary rate for the next twenty days, and
(c) half the ordinary rate thereafter.

Sarvashri Ram Asra, Mool Chand, V.Balasubramanian and A.K. Verghese.

(a) half the ordinary rate for the first ten days;
(b) three-eight of the ordinary rate for the next twenty days; and
(c) one-fourth of the ordinary rate thereafter.

2. The expenditure involved should be borne by the Mahgalore Municipality.

Yours faithfully,

Sd/- Babu Ram,

Under Secretary.

From the Commr., Mangalore Municipality, No.G1/10617/53 dated 27-1-54.
From the Commr., Mangalore Municipality, No.G1/10617/53 dt.10-2-54.
From the D.P.H. No.8723-Mal/54 dt.19-2-54.

Sub:- Filariasis--Mangalore Municipality--Scheme of control.

...

Sanction was accorded in G.O.4204 Health, dated 22-12-53 to a comprehensive anti-filarial scheme proposed by the D.P.H. for the Mangalore Municipality at a cost of Rs.40200 per annum. Sanction was also accorded to that G.O. to the proposal of the Mangalore Municipal Council to invite a small unit from the Malaria Institute of India to work for a period of three months in the municipality to demonstrate the technique of control of filariasis and also to formulate new control schemes for the municipality, if necessary. The Commr., Mangalore Municipality indicated at that time that the expenditure to the council on account of the unit from the Malaria Institute would be about Rs.2,500 by way of payment of t.a. and d.a. to the staff of the unit. This expenditure also was sanctioned and the council was asked to meet the expenditure by making savings in the anti-filarial scheme already functioning in the municipality.

2. The Director Malaria Institute now states that an unit is ready to leave for Mangalore but wants an assurance that the following facilities will be provided for the unit:-

(a) A suitable office.
(b) Laboratory facilities.
(c) Residential accommodation.
(d) A transport.
(e) Local staff to be trained for work along with the unit.

The Mangalore Municipal Council was consulted in

the matter and its reply is at p/.11 c.f. The position is as follows:-

(a) above: The Council has indicated that office accommodation will be provided in the ~~north ending~~ wing of the cricket pavilion. The Govt. need not object.

(b) above: The council proposes to make available to the unit, ~~to~~ the existing laboratory facilities. The Govt. need not object.

(c) above: The Council says that the resident accommodation is available in the local lodging houses which the visiting team may inspect and ~~accommodation~~ themselves". The provision of residential accommodation is not one of the conditions agreed to before when the D.G.H.S. was ~~xxxx~~ asked to send an unit from the Malaria Institute. There seems to be no reason why this Govt. or the Council should undertake to provide residential accommodation for the unit. The Govt. may agree with the Council that the unit may be left to make its own arrangements. The Director Malabia Institute may be informed accordingly.

(d) above. The council's resolution says that the municipal ambulance will be placed at the disposal of the unit whenever it is not required for other purposes. The ambulance is probably intended for the use of the general public on payment of hire charges and it is not clear whether it should be diverted from its legitimate purpose and given to the unit. Once it is placed at the disposal of the unit it will be difficult to take it back for its legitimate use The Director General of Health Services originally said that only the expenditure by way of t.a. and d.a. for the staff of the unit will have to be met the Council. The Director of the Malaria Institute now wants a trasport for the unit. For orders whether ~~this~~ the Govt. ~~should~~ may agree to place the

(P.T.O.)

municipal ambulance at the disposal of the unit.

(e) (above) The Council proposes to depute the staff of the existing anti-filarial scheme to work with the unit. This Govt. need not object.

3. Subject to orders on the points mentioned above, the letter of the Commissioner, Mangalore Municipality at pp.9-11 c.f. may be forwarded to the Director Malaria Institute of India. The Commissioner has already despatched to the Director Malaria Institute a cheque for Rs.1,000 along with an advance copy of the letter at p.5 c.f. for the travelling and other expenses of the unit. This is covered by the sanction in para 3 of G.O.4204 Health, dated 22-12-53. ~~but the Council should have enclosed the cheque with the original letter at p.5 c.f. and not with the advance copy sent direct to the Director Malaria Institute.~~ Subject to ord A draft letter is placed below for approval

4 Finance may see after issue of the draft
